

Mentoring practice

Josh is one of the Team Judges serving at the Registration Duty Station. He has been doing a great job interacting with voters all day (he is helpful and friendly); however, as he is working with one voter, you notice that he doesn't complete the bottom of the Voter Registration Application after reviewing the voter's proof of residence. You step in to assist, ensuring the section gets completed, and Josh helps the voter through the rest of the process. Once the voter moves on to the next station, you take a few moments to work with Josh.

Describe how you would use CPR to mentor Josh.
